

Back Guards – Kawasaki VN1700 Voyager / Nomad / Tourer

General information and comments:

1. **Reuse the original rubber spacers located between saddlebag and guard.**
2. Do not tighten the screws too tight, so as not to bend the handles and not destroy the elements (eg frame) of bike.
3. Remember that the guards are not designed to protect the driver and passenger, but to protect the motorcycle to a limited extent. Engine guards may be effective at low speeds.
