

Passenger Backrest – BMW R18 ver.B

General information and comments:

1. Do not tighten the screws too tight.
2. Tighten all screws at the end - after assembling the entire structure on a motorcycle.
3. Always check the screw length and pitch - compare to the original. The final length of the screw depends on the installed components on the bike.
4. The luggage rack is mounted between upright with pad and the side of the backrest.
